

# Playing God – Geoengineering

# How do you like your weather?

**What?** Geoengineering -

A deliberate large-scale intervention in the Earth's natural systems to counteract climate change

**Why?** Reduce emissions of greenhouse gases, produce rain fall, controlling food production

**When?** 1960, Bernard Vonnegut Theory ([weather modification activity](#) combined with [water vapor from jet airplane traffic](#))

**Who?** Universities, private institutions, NASA, NAVY, SRM team.

# Clouds made in ...

## Where? Cloud seeding programs:

Worldwide- China (cloud seeds over 2,000 counties)

Europe, South America, the Middle East, Asia and Australia.

States and Counties- CA, CO, GA, HI, ID, IL, IO, KS, MT, NV, NM, ND,  
SD, OK, OR, TX, UT, WA, WY

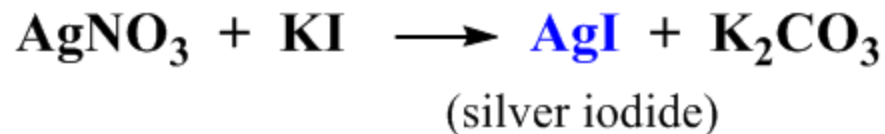

States (legal disputes)- NY, OK, WA, NE, PA, MN, SD, ND TX, CA

# The recipes...

**How?** A way to reduce direct sunlight, spray Nano-particles, creating man-made clouds.

chemical reaction:

Cloud seeding flares: Aluminum oxide, Sulfur, Strontium, Lithium, Magnesium, Manganese, Barium permanganate (high refractive index)

**toxic chemicals**

Bees disappearing, small animals weakening, fish dying, snow/rain w/ toxic metal

# The consequences ...

declining of bee population

Snow & rain drops with toxic metallic particles

intensify storm

destroy ozone layer

# More information on man-made clouds
